Yes, the Sentinel is in favor of boosting Tropico—all of Tropico. What are you doing to help?

# The Tropico Inter-urban Sentinel

Say good things about your town, even if you have to tell how onery you are yourself.

A better country than the San Fernando Valley to live in may have been made, but has not yet been discovered.

VOL. III | TROPICO, CALIFORNIA, WEDNESDAY, OCTOBER 22 1913 | No. 36

## A MERITORIOUS ADDRESS

### The Able President of the Tuesday Afternoon Club Gives Annual Address

### MAKES SUGGESTIONS

### And Urges the Club Members to Make an Active and Persistent Effort to Secure a Club Building

"Wisdom is knowing what to do next; skill is knowing how to do it, and virtue in doing it."—David Starr Jordan.

What to do next is always the vital question, not only in everyday life, but in every phase of our existence.

The new president of any organization sees looming before her always this immense black question mark.

She feels also the questioning eyes of each individual even if she fails to hear the oft-repeated phase, "What are we going to do next?" Of course she is expected to advise and counsel, and it is truly a wise one who can give advice that will be acceptable to all people.

That we may make no mistake in what we do next, let us look for a little while at the past, present and future of the Tuesday Afternoon Club and visualize it today in a way that we have never done before.

We all know that a woman's club is ever the subject of ridicule with a certain class of men, and, I regret to say, some women, who are densely ignorant as to the purposes and achievements of an earnest body of women who are really receiving a post-graduate training in their club work.

The keen interest of women in affairs of today as shown in our study programs; the active work of our various committees in philanthropic, public welfare and other important matters shows that we, at least, are not selfish.

Today the woman's club which has a true purpose or reason for existing is the one most likely to endure. As one great man has said, "Nothing can be great which is not right."

Under our by-laws, in Article II, we find:

PURPOSES.

Section 1. Advancement in all lines of general culture.

Section 2. Promotion of the general welfare of the community.

Section 3. Acquisition and holding of real and personal property to promote the other purposes of this organization.

Advancement in all lines of general culture—that means to me both mental and moral culture, and covers a great field. Many ask "What has The Tuesday Afternoon Club done for Glendale in the way of general culture or toward the general welfare of our community?" The reply is, "We mothered the public library of this city." When our club was first formed and met from house to house we purchased as our first book to discuss, "The Master Christian," by Corelli. Afterward we decided to start a public reading room, and so began the public library of Glendale. The books we had read and discussed were donated, and this first book spoken of is the nucleus of our present library.

We should not stop with the sowing of this seed, which has borne great fruit, and though we may not present our city with a beautiful park or ample water service we can, and will sometime, erect a beautiful club home in which to carry on our work and of which our citizens will be proud to speak.

What can we do this year to promote the general welfare of our community?

I would recommend that we strive to awaken a feeling of pride in the citizens of our town as to the general appearance of our so-called Jewel City.

Our vacant lots and ragged parkways appear very untidy and inharmonious in comparison with our stately street lights. It should not rest entirely upon our Civic Committee to see what can be done along these lines, but the whole club should stand ready to co-operate through this committee with the Board of Trustees of our city, Chamber of Commerce or Civic Club for any measure toward a betterment of the public welfare of our community.

It is said that the following creed is to be found upon the walls of the studio of a great artist:

**Thing Big—Work Hard.**
**Talk Little—Give Freely.**
**Love Much—Pay Cash.**
**Laugh Easily—Be Kind.**

What a wonderful club creed if we would live up to it!

Now we come to Section 3 under purposes, which reads, "Acquisition and holding of real and personal property to promote the other purposes of this club."

This club was organized in 1904 and federated in 1905, incorporated in 1908.

It seems to me we have been a

## INSTRUCTIVE LECTURE

### At Shrine Auditorium by Clarence C. Eaton of Tocoma

The remarkable betterment wrought in the temperament, character, habits and deeds of men by Christian Science are the direct result of the casting out of evils or devils. This evidence of obedience to the Master's command is attracting more attention today, perhaps, than mere physical healing. The latter is an incidental experience on the way to the ultimate of reformation and transformation. The most precious gifts of Christian Science are to be designated as peace, contentment, satisfaction, joy—experiences and conditions for which we crave and which can become ours only through the casting out of evil and the acquirement of enlarged spiritual understanding. By a proper application of scientific and demonstrable knowledge of spiritual truth, errors in belief which throng one's consciousness are cast out, dissolved and dissipated, as naturally, scientifically and inevitably as light destroys the darkness. Usually the first errors to yield in one's mentality are those which have found expression in physical infirmities, but this is not the goal which Christian Science urges us to seek. We should strive for and win a consciousness thoroughly purged of evil, and so we press forward, as Mrs. Eddy has so aptly put it in our textbook, "until boundless thought walks enraptured, and conception unconfined is winged to reach the divine glory" (Science and Health, page 323).

For sixteen centuries mental therapeutics as instituted by the Master remained dormant, but in these latter days Christian Science represents the restoration and reestablishment of its practice. Less than fifty years ago only one person on earth realized what Christian Science in this respect means to the world. Today many thousands are vividly conscious that it is wholly due to its teaching and practice that they are alive and able to say they are healthy and happy. If in less than half a century, much of which time was necessarily spent in overcoming the prejudices of mortals and dealing with the many problems incident to the formative period of all earthly undertakings; if during these trying years of the reestablishment of a religious practice which had been entirely neglected and in disuse for upwards of sixteen hundred years; if notwithstanding the almost universal and persistent practice of ignoring God as the healer of the sick and seeking material means for relief and healing, no matter how utterly inadequate or futile—if in the face of all this Christian Science has adequately proved equal to the task of releasing from the bonds of sin, suffering and disease hundreds of thousands of people, are we not justified in saying there has come to their realization the fulfilment of Jesus' prophecy: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father." "And these signs shall follow them that believe; In my name shall they cast out devils; they shall speak with new tongues; they shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover."

### SHOWING RESULTS.

After working for two years on an immense nursery of trees, vines and shrubs, and the expenditure of more than one hundred thousand dollars, the San Diego Exposition is now prepared to show hundreds of varieties of trees and vines new to Pacific coast landscapes. Already these new specimens are being successfully grown on the grounds of the Exposition and in the immense nursery of the Exposition, and in 1915, when the hundreds of thousands of visitors come to San Diego they will be afforded many striking illustrations of the uses these new trees and plants may be put to. Wonderful landscape gardening will be shown, and the best methods of treatment for all natural situations illustrated.

This great work was not, however, undertaken with a view to the adornment of the San Diego Exposition grounds alone. It was believed from the first that the influence of the Exposition upon the minds of those visitors who come from the various sections where such specimens as the Exposition has gathered from all parts of the world can be made to thrive will be such that great interest will be aroused in landscape adornment and in the years following the Exposition great results in this line will follow.

### THE TRUSTEES' MEETING.

The regular meeting of the Board of Trustees was held on Thursday evening, but on account of only three members being present litle business was transacted.

The Pacific Telephone and Telegraph Company submitted their annual report, showing a total business of $3,953.10, on which they enclosed check of 2 per cent, amounting to $79.06, in favor of the city.

A petition protesting against granting Mrs. Forest, living at the corner of Columbus and Christopher streets, a permit to remodel her house, signed by J. D. Stranton, H. F. Harrison and ten others, was presented to the Board. This petition was referred to the building inspector, with instructions to investigate and report the same before issuing the permit.

### YEOMEN GIVE BIG MINSTREL SHOW.

A period of many moons and at least two comets has passed since a minstrel show was given in Tropico. There might have been one or two back in the dark ages before we had street lights and a speed cop, but since that time, from whence the memory of man runneth not to the contrary, none has been given. So one goodly Archer from the Yeomen Lodge spake unto another, saying "Let us have no more of this. Up, Jesters! Take unto thyself the color of the ace of spades and don thy most vociferous apparel. Let us show them that the last minstrel has not yet been laid!" And quoth the other knight of the crossbow, "So be it!" and it was so ordered.

The show is to be given at the K. of P. Hall on the evenings of the 30th and 31st. Ed Shipman, whose experience in this line of work dates back to the days when he wore knee trousers and played marbles, is in charge of rehearsals.

"Everything points to a great success," said Mr. Shipman. "We are running a double end, two Tambos and two Bones. Tambos, Harry Schaeffer and myself; Bones, John Stathem and Herbert Crane. In addition to the first part, where several popular songs will be rendered by Miss Laura Eyraud, Mrs. Edith Bruck, Mrs. Charles Allen, Herbert Crane and Bob Danner, we have been exceptionally fortunate in securing specialties for the olio. Among them are a cross-fire talking act, a monologue, a farce, a tableau, a dancing team and an afterpiece entitled 'When the Black Comes Off,' showing the minstrel men in the dressing room after the show. And not forgetting a clever little act entitled 'The Chicken and the Ham,' presented by Owen Rhodes and Mary Jane Darline—whose name in private life is Mrs. Owen Rhodes, for the two of them were married on the stage of the theatre where the little actress was playing about three months ago. And they were made a tempting offer to go out in vaudeville—but that is another story." Shipman broke off. "Come around and see the show." And I told him I reckoned I would.

### THERE IS NONE OF THIS CLASS IN TROPICO.

A local preacher, at the conclusion of one of his sermons, said: "Let all in the house who are paying their debts stand up." Instantly every man, woman and child, with one exception, rose to their feet. The preached seated them and said: "Now every man not paying his debts stand up." The exception noted, a careworn, hungrylooking individual, clothed in his last summer's suit, slowly assumed a perpendicular position. "How is it, my friend," asked the minister, "that you are the only man not to meet his obligations?" "I run a newspaper," he meekly answered, "and the brethren here who just stood up are my subscribers, and——" "Let us pray," exclaimed the minister.—News-Herald.

Inglewood has just voted $150,000 worth of bonds for a new high school building.

## PROTECT WATER SUPPLY

### Glendale Board of Trustees Protect Purity of Water

The Board of Trustees of Glendale are fully alive to the importance of protecting the purity of the water supply in the Verdugo Canyon, and that there may be no misunderstanding as to their attitude they have passed the following resolution:

Whereas, within the past few months certain development work has been and is now progressing in said canyon and covering said lands from which said water is derived by various corporations, co-partnerships, firms and individuals connected therewith and by many other persons by subdividing said lands into building lots for residence purposes and by laying out streets, alleys, lanes and courts to be used by those who are expected to and probably will in the near future build residences together with the necessary outbuildings, including cesspools, sewers and drainage, all of which improvements buildings, and occupancy thereof will probably pollute the waters of said canyon, arising on and near said lands and render it unfit for domestic use in event proper precautions for the protection of said water is not taken, and

Whereas, the law of the State of California and the ordinances of the City of Glendale provide as follows:

"It shall be unlawful to discharge or deposit, or cause to suffer to be discharged or deposited, any sewage, garbage, feculent matter, offal, refuse, filth, or any animal, mineral, or vegetable matter or substance, offensive, injurious, or dangerous to health, in any springs, streams, rivers, lakes, tributaries thereof, wells or other waters used or intended to be used for human or animal consumption or for domestic purposes; or to discharge or deposit, or cause to suffer to be discharged or deposited, any such offensive, injurious or dangerous matter or substance upon the land or place adjoining such waters so as to cause or suffer such matter or substance to flow or be emptied or drained into such waters.

"It shall also be unlawful to erect, construct, excavate, or maintain, or cause to be erected, constructed, excavated, or maintained, any privy, vault, cesspool, sewer pipes or conduits, or other pipes or conduits, for the discharge of impure waters, gas, vapors, oils, salts, tar, or other matter or substance offensive, injurious, or dangerous to health, whereby any part of such matter or substance shall empty, flow, seep, drain, condense or otherwise pollute or affect any of such waters so intended for human or animal consumption or for domestic purposes; or to erect or maintain any permanent or temporary house, camp, or tent, so near to such springs, streams, rivers, lakes, tributaries, or other sources of water supply, as to cause or suffer the drainage, seepage, or flow of impure waters, or any other liquids, or the discharge or deposit therefrom, of any animal, mineral or vegetable matter, to corrupt or pollute such waters."

And, whereas, it appears to be the duty and obligation of this board to insist upon a strict compliance of said laws by all parties who may threaten a violation thereof; now, therefore, be it

Resolved, that it is the intention and purpose of the board of trustees of the City of Glendale to insist upon a strict compliance with all the provisions of the law hereinbefore referred to by all parties interested in any way and manner in the lands from which said water is being derived, and shall expect all persons, firms and corporations who are engaged in the business of carrying, conveying, delivering or distributing said waters from said source to the people of the City of Glendale for domestic use to invoke all the powers and provisions of said statute to the end that said water may be kept pure so that such water companies will at all times be able to deliver to the people of the City of Glendale said water in its pure and unpolluted state.

The purpose of this resolution is to notify all parties interested of the position and intention of this board so that no person, firm or corporation will be led to believe that a strict compliance of the law will not be required.

That the Board of Trustees have taken this precaution will be good news to every man and woman in Glendale and Tropico who desire to see these cities remain in the enjoyment of water which rightly belongs to the two cities and in its natural state is as pure as is to be found in any country.

### WHAT DO YOU KNOW ABOUT IT?

Editor Sentinel:

How many of your readers know about the "deal" the city of Los Angeles is trying to "put over" on the people of the county?

Possibly the board of supervisors will be able to make the county taxpayers the "goat" in the unbusinesslike deal by which Los Angeles city hopes to unload on the county the Monolith cement plant for $550,000. The astounding thing is that the supervisors outside the city are in favor of assuming the burden and are ready to take over the aqueduct's gold brick. So far as Pridham is concerned, his complacence is understandable. The South Pasadena man hopes to deliver his district into the hands of the annexationists and with his eye on the mayoralty of Los Angeles his disloyalty to the county is expected to be an ingratiating factor in his campaign for votes. What Captain Manning's excuse is for the sell-out of the county is not divulged.

For the county has no more use for the cement plant than it has for annexation; in either case it is a sacrificial offering on the altar of Los Angeles. Aside from the tainted product of the plant, which the city engineering office has shown in the past by its action in rejecting Monolith cement, the county will have an idle investment five-sixths of the year if it comes into possession. In other words, the plant could easily turn out in a two weeks' steady run all the cement the county could use in a year. To overcome this economic waste it is proposed to go into the cement business and contract to furnish the mill's product to outsiders. Let us see how this will work.

Los Angeles is asked to "guarantee" to purchase all its cement from the county as a condition of the "bargain." We doubt if this is legally possible. The charter specifies the manner in which all purchases above a certain sum shall be made, by competitive bids through advertising. It has no authority to proceed otherwise. Besides, if the city's business were sufficient to warrant the supervisors in saddling the county with the elephant why not reverse the operation? Let the city keep its plant and the county agree to buy Monolith cement, always providing its commercial fitness is demonstrable. Los Angeles is willing enough to sell, but we doubt if she is foolish enough to agree to buy all her cement of the county, even if there were no legal obstacle.

It is about time for the county newspaper publishers to get together and make formal protest to the supervisors of this proposed rape of the county treasury. Not only is the cement plant in disrepute, but its acquisition by the county were a piece of monstrous extravagance which the necessities of the county in no wise warrant. Doubtless Los Angeles needs the money, but why the county should buy her junk to help pay her debts is not apparent. If Messrs. Manning and Pridham and Henshaw continue to favor so treacherous a deal their constituents should demand an explanation and insist on an about face position.

Taxpayer.

It is understood that the Glendale water committee will be ready to report the results of their investigation at a mass meeting to be called at an early date.

## TROPICO FANS LAMENT

### Tropico and Glendale Fight a Battle Royal in a Fast and Exciting Game

### GLENDALE WINING

### By Bringing in Outside Material to Help do the Trick. Game Closes 7 to 8 in Favor of Glendale

For the second time, Tropico met defeat at the hands of Glendale last Sunday on the latter's diamond. However, there is a very well defined feeling among the Glendale players that they had been in a ball game, and although strengthened by two players of Western League fame they were barely able to get away with the honors. The Tropico boys fought an up-hill battle for nine innings, but a lucky steal by Flores and a luckier hit by Charlie Bidwell broke the deadlock in the 10th. The grounds were in poor condition and had a tendency to slow up the playing of both teams.

Glendale took a lead of two runs in the first inning and repeated the dose in the second. Sam Rich did some excellent work in nailing several long flies in the third, which prevented them from scoring again.

The Tropico delegation yelled themselves hoarse in the fourth, when "Hasty" Bidwell stole home, scoring the first run for Tropico. Bidwell again came in for big applause by his excellent work in the fourth inning, when he struck out three men with 12 throws.

Glendale scored again in the sixth and eighth and then Tropico broke loose, rapping them for three runs and rattling the Glendale boys badly. Markwith pounded them again in the ninth for a two-bagger, sending in three runs which tied the score. Johnston was yanked out of the box and Galt took the mound in the tenth and succeeded in holding Tropico down. A lucky single by Charlie Bidwell after two men were out in the tenth scored Flores from third and the agony was over.

Taking it all in all, the local lads were up against a stiff proposition in their heavier, stronger and more experienced players, and but for some costly errors would no doubt have won the game. However, they have one more chance at the Glendale team and in the words of the immortal Shakespeare, "We'll git you yet."

## Seven Propositions Outlined by Los Angeles

AT LAST Los Angeles has formulated a definite annexation policy and outlined the same in seven propositions, and has appointed a committee, or, rather, a commission, to push the annexation proposition in the territory desired to be annexed. The seven propositions are:

(1) Annexation or consolidation should be a condition precedent to the furnishing of water to any territory.

Of course, this is the desired plum to be held up as an inducement to annexation. How luscious this plum will look should depend upon the conditions confronting the respective territory desired to be annexed. It is not attractive to people in Tropico who have given the subject any consideration. At the present time there is not one possible benefit to be derived in obtaining Owens River water.

The next proposition is:

(2) Annexed territory should bear its proportionate share of the aqueduct, power and harbor bonds, but not of the balance of the outstanding indebtedness of the city.

This would be fine for Los Angeles, but where does the outside territory benefit? It is to assume a proportionate share of aqueduct, power and harbor bonds. Do you want to voluntarily increase your taxes just to help out the big city? If so, you should favor the annexation policy on this ground. That would be the result, and the only result.

The next proposition is:

(3) Annexed territory should have local boards of public works to pass on questions relating to streets and local public works and oversee such work, all under the direction of the city's Board of Public Works.

In other words, we may play at governing ourselves, but we must have all our acts inspected and supervised by who? Those whom the exigency of city politics may accidentally throw to the surface for a time. We must take our hats in hand and go down and ask permission for anything we want done. Of course, we are expected to pay the expenses of our "make believe board."

The next proposition is:

(4) Agricultural sections should be classified as such, in contradistinction from city sections, and should have one-half of the annual taxes they pay for the general running expense of the city set aside to constitute a road fund for general road work in such agricultural sections. To balance this road fund arrangement, the city should not attempt to furnish to the agricultural sections those features of city expenditure which are not needed in agricultural sections, such as expenditures for parks, playgrounds, garbage collection, and, to a large extent, expenses for fire and police protection.

This does not, of course apply to Tropico.

The next proposition is:

(5) Annexed territory shall pay for its own distributing system for the distribution of water, but the city shall construct certain main lines, to be specified, carrying the aqueduct water to the local distributing systems.

This proposition has not been definitely agreed upon by the annexation commission, so at this time it can be passed over for future consideration.

The next proposition is:

(6) Extension of any light and power system which the city may install shall be made in annexed sections on the same general plan that may be followed within the present city boundaries.

As to how "the same general plan that may be followed within the present city boundary" works can be learned by inquiry of any outlying district that has come into the city within the last few years. It takes time to get connection and service from public service corporations under our present direct method of dealing with them. How much more deplorable would be our condition if left to the tender mercies of the same "general plan" can only be conjectured.

The next proposition is:

(7) Annexed territory desiring to connect with the outfall sewer to the sea shall have the right to do so, and the city shall enlarge the capacity of the outfall sewer from time to time, as may be necessary.

This is something that in time will be needed in Tropico, but when that time comes it will very probably be possible to make much better terms with the city than they are now offering.

These are the terms on which you are asked to sink your identity, surrender your liberty of action and play puppets to professional politicians.

Does it sound good to you?

THE impeachment of Governor Sulzer by the New York Legislature is a disgrace to a great State. Sulzer was a product of his times, and unquestionably had many failings and faults, but he is white as compared to the men who brought about his downfall, and this downfall was brought about simply because Sulzer would not do their bidding. Of all States in the Union there probably is no other so corrupt as the State of New York. Conditions in that State are such that corrupt leaders flourish. What is known as "up-state New York" is a hard-bound Republican region peopled with good citizens, but narrow of outlook and circumscribed in experience. In the city of New York hundreds of thousands of illiterate and uneducated foreigners land each year, and this makes fine material for the corrupt city politician. It is possible, in fact, probable, that good will come from the Sulzer trial, inasmuch as it may arouse the decent citizens of the State to a civic activity that will, to a certain extent, purify conditions which at the present time are a disgrace to the whole Union.

### WORKING THE DOUBLE CROSS.

TO what desperate straits the peanut politicians of Los Angeles are driven is evidenced from the following editorial from the South Pasadena Record and the article by "Taxpayer" found in another column of this issue of The Sentinel. A recent issue of the South Pasadena Record says:

"The biggest civic problem now facing Los Angeles is the distribution of aqueduct water," said Mayor Rose Thursday in a talk before the Los Angeles Ebell club.

For once Mayor Rose is right—the problem of aqueduct water distribution is one that is disturbing the dreams of all the officials of the Angel City, and it is a problem that will require many more months to solve. Los Angeles authorities are in a tight box. The city is bonded to the limit, new territory that is practically free from debt must be annexed if the City of Los Angeles expects to vote more bonds with any show of selling them. It is the wish of that city to annex Alhambra, South Pasadena, Glendale, Tropico and the San Fernando valley.

This is the Angel City's program: Talk the suburban towns into wanting aqueduct water, which MUST be disposed of. After the people are buncoed into wanting the water, make them believe they cannot have it unless they annex. On the face of it the trick appears simple, but the Los Angeles officials are coming to a realization that the people of the suburban districts have been doing some thinking for themselves. They are not willing to "sell their birthright for a mess of pottage," even for the sake of obtaining the "pure, sparkling" Owens river water.

Bear this in mind: an eager purchaser never secures a bargain. In other words, if we ever need Owens river water we will be able to secure it from Los Angeles at some future date on much easier terms than by annexation. Los Angeles will have a vast surplus of water to dispose of; in fact, she MUST dispose of it, even without annexation, if she ever expects the aqueduct to be a revenue producing utility.

The loophole is being formed now so that the water officials can gracefully slip through when the time comes. In proof of this we have the word of Leslie Hewitt of the Annexation committee who on Wednesday said that Los Angeles could not sell water to be resold, but that the city could NOT withhold aqueduct water from outside territory. The committee will eventually slip through this loophole and, without annexation, we will be able to get all the aqueduct water we need, if we should ever want it.

It is amusing to note the way Los Angeles officials are playing on the feelings of suburbanites. They tell Glendale and Tropico that Alhambra and South Pasadena are simply falling over each other to annex; then they tell the Alhambrans and South Pasadenans that Glendale and Tropico are wringing their hands and crying for admission. The truth of the matter is that not a single one of these cities has any intention of annexing. Each city is working out its own problems with the intention of remaining a municipality separate and distinct from any other.

Fortunately, in Tropico the question of annexation to Los Angeles is looked upon as a joke. A few guileless little boys who think it's nice to run errands for the Heap Big Buncums in Los Angeles and two or three nice, kind-hearted old ladies are the only ones that are worked up over the scheme.

The plan of Los Angeles to take in the adjoining cities is really so crude and amateurish that its only excuse is the desperation of its sponsors.

### NO MORE $5 DEPOSITS.

The State Railway Commission, on complaint from San Jose, has held that the Pacific Telephone & Telegraph Company shall not be allowed to exact a $5 deposit from users of telephones, as has been their custom throughout the State heretofore. The Commission rules that the fee of $5 deposit is justly a cost assignable to the capital account of the company, and should not be borne by the consumers. This decision is exactly in line with the contention of The Sentinel, and proves that The Sentinel was right when it insisted that the local company be prevented from receiving such deposits from patrons anxious to secure phone connection.

### SCOTLAND.

*Special to the Sentinel by E. W.*

Our tour of Scotland was made very enjoyable by our being favored with very excellent weather which, we were told, was exceptional for that country. On our way from Belfast, Ireland, to Glasgow we stopped at Ayr, the birthplace of Robert Burns, and visited the quaint Burns cottage with its thatched roof and whitewashed stone walls. From the the home we walked on down the road to Alloway Auld Kirk, now roofless and vine-covered and surrounded by the churchyard well filled with graves and tombstones. We had just re-read "Tam O'Shanter," and we could easily picthe dance of the ghosts and the witches that Tam saw on that stormy night and as we wandered on we came to the Auld Brig O' Doon where our Tam succeeded in crossing and so escaped from his pursuers, as these spirits could not cross over a running stream. The three Brigs O'Doon made a very charming picture on that late summer afternoon, and the song of "Ye Banks and Braes of Bonnie Doon" was quite in keeping with the place.

We did not hurry from Glasgow to Edinburgh, but went by way of the Trossachs. And as we sailed along Loch Lomond with Ben Lomond on our right and over Loch Kathrine, where our boat was guided around Elleris Isle, we recalled many a passage of the "Lady of the Lake." While staying in the Trossachs one of the hills on the banks of Loch Achray and read aloud most of that poem which has made this district of beautiful Scotch scenery so well known. Coaching on to Callender, we passed many a hillside, glowing with the purple heather, and often as we drove by a patch of it there were also thistle and the bluebells along with the heather, and the colors of all were blended together.

We stopped over a few hours at Stirling and visited the old castle on that rocky stronghold, and from here we had such an extensive view of all the country for miles and miles. The castle is now used as a barracks, and we saw many a Scotch soldier dressed in suits of plaid about the grounds. The only room inside the castle to which we were admitted was the one in which one of the Earls of Douglas was murdered.

We found Edinburgh quite an attractive city, and all along the way we have liked the Scotch people with whom we have come in contact. Here in Edinburgh we visited the Holyrood Palace, where there is so much that is associated with Mary, Queen of Scots, and then the Edinburgh Castle, which, like Stirling Castle, stands high above the surrounding country with perpendicular stone precipices on three sides.

We spent a day at Sir Walter Scott's grand home at Abbotsford, which is still kept just as he left it, and as he was a collector of many books, relics and armor there is much of interest. We drove out to Dryburgh and saw the picturesque ruins of the old Abbey, and it was in one of the chapels that we found Scott's tomb.

At Melrose we visited that most beautiful ruin in Scotland, the Melrose Abbey, such a wonderful piece of architecture; no two parts were alike, but everything was so balanced that there was perfect harmony in the whole.

The proposed auto trip of Messrs. Norton, Marshall and Kissler to inspect some holdings in Imperial Valley was brought to a sudden and unfortunate termination last Friday. When crossing the desert a spark from the muffler of the auto ignited the oil in the drip pan and almost instantly the car was in flames. The fire gained such rapid headway that they were unable to save anything but one suit of clothes. The machine was a total loss, as well as their clothing, bedding, rifles, two gold watches and a hundred dollars in gold.

The O. P. Martin hardware store landed an order last week for 48 gas ranges to be placed in a new apartment building in Long Beach. You can depend on Tropico at all times and in all ways.

## Seasonable

**Quality goods just arrived, and priced low for quick sales.**

### Asparagus

One of the most wholesome and easily digested vegetables grown, priced within reach of all.

Pennant Brand is a mammoth white and peeled—an exceptionally fine quality in 2½-lb. size cans, only .....25c

## HAPPENINGS

In the election at Redondo Beach last week on saloons the Wets won by a majority of 195.

Mr. Roscoe Lyon of Minneapolis is visiting Mr. and Mrs. Wm. Herman West of 1427 Hawthorne.

John Hobbs has returned from his trip to San Francisco. Tropico's illustrious alderman says he had a royal time, but he looks somewhat "fagged."

Mr. Will Richardson of Santa Paul was the over-Sunday guest of his brother and family, Mr. and Mrs. Frederic C. Richardson of Central avenue.

N. F. Thrasher arrived from Kings City, Mo., Thursday evening and is the guest of his brother and sister-in-law, Mr. and Mrs. J. R. Maxwell.

Mrs. Hoffman of N. San Fernando road has gone to Ocean Park to be with her friend, Mrs. Hettie Williams, who has been quite ill for ten days.

Mr. and Mrs. George Peck and Miss Amy Miller of West Tenth street were guests of Mr. and Mrs. Bert Burlingham in West Glendale on Sunday.

Miss Katherine Stealman of Los Angeles spent several days in our "city beautiful" last week as the guest of Mrs. Samuel Pollock on W. Park avenue.

Mr. and Mrs. George Howe were recent visitors at Washington Park, during an interesting game of baseball—and George "rooted' for the wrong side.

After a pleasant visit of a week as the guest of his uncle and aunt, Mr. and Mrs. James R. Maxwell of Park avenue, Harry Maxwell has returned to his home at Colorado Springs, Colo.

Dr. Samuel Pollock and son Allen were guests of Dr. Curry on his steam launch Sunday at San Pedro. They caught quite a string of small fish, but were unable to land any yellowtail or tuna.

Mr. and Mrs. John Logan, accompanied by Misses Mary Logan, Eunice and Esther Jones, autoed to Verdugo Park Sunday and were enthusiastic fans at the baseball game.

The General Richard Gridley chapter of the D. A. R., recently organized by Mrs. Mary Howard Gridley, has been invited to meet the State Regent at Hotel Virginia, Long Beach, October 30.

Monday evening was open house with Visor Lodge, K. of P., and the evening was spent in playing progressive whist, the members, their wives and sweethearts being present. Frances Booth was master of ceremonies for the evening and filled the place quite efficiently.

Mrs. Luella M. Bullis, Worthy Matron of Glen Eyrie Chapter, and Mrs. Margaret McPeak Campbell, District Deputy Grand Matron, left on the O. E. S. excursion Monday morning for Santa Cruz, where they will spend the week attending Grand Chapter, Order of the Eastern Star, of the State of California.

Mrs. William Hartwig of West Acacia avenue was "at home" to a party of former "Hoosiers" last Thursday. An elegant three-course dinner was served at noon. Covers were laid for Mmes. Sahl, Leiritz, Doerschel, Friedgen and the hostess.

Mr. A. H. Niemann of 224 Mountain View avenue has bought the express business heretofore conducted by J. W. Wilbur of Glendale avenue and hereafter will give prompt attention to all orders for plowing, hauling or express service. Mr. Niemann understands the business, and any orders entrusted to him will receive prompt attention.

It became known last week that Mr. Walter LaFrance Kent and Miss Echo Dale had been quietly married in Santa Ana on September 2, but had succeeded in keeping their marriage a secret for over a month. The announcement of the marriage was made by the bride's parents, Mr. and Mrs. James Dale of 1527 Ivy street, in a neat little entertainment given last Tuesday evening.

A party consisting of twenty local baseball enthusiasts spent Sunday at Verdugo Park, where they enjoyed an old-fashioned basket picnic and finished the day's pleasure by attending the Glendale-Tropico baseball game. The trip was made in Will Hartwig's auto truck, and it was thoroughly enjoyed by everyone. A large and varied assortment of good things to eat formed a greater part of the load, and after the meal had been spread and Mrs. P. M. Carpenter's Victrola started in operation there was nothing more to be wished for in the line of picnics.

Mr. Edgar Baxter of 402 West Third street was a surprised but happy recipient of a beautiful card case and double chain, presented to him on his 80th birthday by the Elks, of whom Mr. Baxter is an old and honored member. The presentation speech was made by Mr. William Herman West in his usual happy vein.

The condition of J. Bailey Hickman, who suffered a stroke of paralysis Wednesday morning, is very much improved. Mr. Hickman was stricken while at his duties at his home, Palm Villa, on West Park avenue. C. E. Kinney, a neighbor, called for his usual morning chat with Mr. Hickman and found him lying where he had fallen ten minutes previous to the arrival of Mr. Kinney. Mrs. D. H. Imler and Miss Hickman are in constant attendance upon their father. Friday evening word was received by Miss Hickman notifying her of the illness of her brother, John J. Hickman, at the St. Francis hospital in Colorado Springs, Colo.

### TROPICO THURSDAY AFTERNOON CLUB.

Mrs. Wesley H. Bullis extended the hospitality of her home to the officers and members of the Tropico Thursday Afternoon Club at the first regular meeting of the club Thursday afternoon.

The bright-hued blossoms and brilliant foliage were effectively arranged throughout the home of the hostess, and were mute messengers that the autumnal days have come. The business meeting, presided over by the president, Mrs. Charles A. Barker, was very interetsing and was indicative of an unusually busy and intereting club year for this progressive club. Following the usual routine of business, Miss Bessie Stoddart, member of the Children's Playground Committee of Los Angeles, gave a very instructive talk on the school as a social center.

Dainty refreshments concluded the afternoon's program.

Mrs. Bullis was assisted in entertaining by Mrs. F. B. Storer, Mrs. A. J. Becker, Mrs. Wayland Chapman and Mrs. Ernest M. Davids.

The personnel of the officers and the various committees who will guide the destiny of the club for the ensuing year is: Mrs. Charles A. Barker, president; Mrs. Dwight Griswold, vice president; Mrs. Charles F. Finley, recording secretary; Mrs. Harry Bowman, corresponding secretary; Mrs. O. Earl Clemens, treasurer; Mrs. Charles A. Barker, Mrs. Dwight Griswold, Mrs. Charles P. Finley, Mrs. Harry Bowman, Mrs. O. Earl Clemens, Mrs. Emil F. Tholen, Mrs. Frank McKenny, Mrs. Albert W. Collins and Mrs. Wesley Bullis, directors.

Programme Committee—Mrs. Emil F. Tholen, chairman; Mrs. Mary McLean, Mrs. Mary Edwards, Mrs. Dr. Jessie Russell, Mrs. Tom Thornton, Mrs. William Burke and Mrs. T. C. Rice-Wray.

Hospitality—Mrs. Albert W. Collins, chairman; Mrs. Edward M. Lynch, Mrs. J. Herbert Smith, Mrs. Charles H. Phillips, Mrs. Joseph H. Webster, Mrs. E. J. Prues, Mrs. Ernest J. Morgan, Mrs. A. J. Becker, Mrs. Andy Stephenson, Mrs. A. H. Gaarder and Mrs. Hal H. Davenport.

Ways and Means—Mrs. Frank McKenney, chairman; sub-chairmen, Mrs. Clarence Goode, Mrs. A. L. Bancroft, Mrs. J. H. Webster, Mrs. O. Earl Clements, Mrs. J. H. Smith and Mrs. Wayland Brown.

Press Correspondents — Mrs. Wayland Brown and Mrs. David H. Imler.

Civics—Mrs. Mary Edwards, chairman; Mrs. Frank Davis, Mrs. Frank E. Peters, Mrs. A. P. Stone and Mrs. Wesley Bullis.

Philanthropy — Mrs. William Burke, chairman; Mrs. John A. Logan, Mrs. Clarence W. Goode, Mrs. J. H. Ashton and Mrs. E. V. Bacon.

Music—Mrs. Tom Thornton, chairman.

Art and Literature—Mrs. T. C. Rice-Wray, chairman.

Legislation—Dr. Jessie Russell, chairman.

Household Economics — Mrs. Mary McLean, chairman.

### A Meritorious Address

Continued from page 1

little slow in following up this last by-law—we should have a clubhouse built and paid for by now! Land was certainly cheaper five years ago than it was less than two years ago, when the first move was made toward acquiring any real estate whatever.

In order that we may all share in the work of raising money for our building fund, I have, with the consent of the board, appointed all chairmen as a sub-committee on ways and means, and if each chairman while meeting with her own committee of ladies can arrange to give one benefit this year toward raising means for our future home it will not only show great loyalty to the cause, but add many dollars to our treasury.

Each chairman should advise with the board before announcing her plan of action in order that dates may not conflict with other club events—especially our first Thursday evening programs.

The first Thursday evening of each month will be a regular guest night program, consisting of concerts, recitals or lectures and addresses upon vital questions of the day.

Programs will be announced in the press, also at regular club meetings.

All club members will be admitted without extra charge upon presentation of membership card, but there will be a small admission fee of twenty-five cents for non-members.

The object in this arrangement is not especially to raise money, but to enable anyone who is not a member and is not contributing toward the support of the club to feel at liberty to enjoy as many programs as they desire by paying this small door fee of twenty-five cents.

Tuesday evening, December 9, will be reserved for our husbands, for which, of course, there will be no admission fee, as it will be our annual affair in their honor. You see, we cannot run our club, after all, without taking notice of the head of the household.

The poet has well said,

"As unto the bow the cord is,
So unto man is woman;
Though she bends him, she obeys him,
Though she draws him, yet she follows
Useless each without the other."

I have heard that a man once said, "The first club was raised by Cain, a woman's son, but the woman's club now raises Cain."

I don't recommend that we raise Cain this year, but cash, though Swift has said, "A wise man should have money in his head, but not in his heart." Just now we are most desirous of having money in our treasury—for why? Because we want a home!

With the executive force of women on our ways and means committee we should surely accomplish something toward that end this year.

I read somewhere of a large dinner party in Washington City when a lady sitting next to Mr. Evarts, then Secretary of State, said to him: "Mr. Evarts, don't you think that a woman is the best judge of other women?" "Ah, madam," said the great lawyer, "she is not only the best judge, but the best executioner."

Now, it is not executioners we need, but executive women to secure what we desire in the way of a club home.

I would recommend that we plan to build not less than an eight thousand dollar club house! "Impossible," you say? "It is idleness that creates impossibilities, and when men care not to do a thing they shelter themselves under a persuasion that it cannot be done."

Now we are not men, but women, and women who in the last few years have done much, but can still do more, if we continue to live up to our club motto: "In unity is strength."

We must aim high, for we can never quite reach our standard of perfection. Our own James Russell Lowell truly says:

"Life is a leaf of paper white
Whereon each one of us may write
His word or two, and then comes night.
Greatly begin! Though thou have time
But for a line, be that sublime—
Not failure but low aim is crime."

Our city is growing so rapidly and our membership thereby so steadily increasing that we should think and plan accordingly.

I would further recommend to you as your president and also as chairman of your ways and means committee that the cash now on hand for our building fund be invested in the very best corner lot to be found **centrally** located between Brand Boulevard and Glendale Avenue, Broadway excepted. Out of respect to our former president and her board and according to previous consent of this club I would recommend the boundary lines already established in locating this corner lot—namely, between Second and Sixth, North and South, Brand Boulevard, Glendale Avenue, East and West.

The policy of this club, since I have known it, has always been for the very best in our programs—why not for the very best in location for our home?

Therefore, in accordance with section 3 of our by-laws, I earnestly recommend that we acquire a corner lot and build a home upon it in order to promote the other purposes of this club. According to some scientists, the surface of the earth is contracting, so why not secure that corner before it shrivels up and blows away?

The lot we now have is a fine location and a good investment for an apartment house. It is worth good money. Why not turn it into cash? Is an alley lot the best for our home?

With loyal husbands to encourage us and with the pride our citizens should have in this, a woman's club building, the home of the oldest and largest club for women in the San Fernando Valley, is it wise to be content with anything but the very best we can do?

This, then, is my policy. I do not say to this club: "You must do thus and so," but that I recommend.

I have spoken to you conscientiously, after due deliberation of the entire summer in regard to this matter.

If we have knowledge and skill, which I believe we have, greater than this can be done by our capable women and we will prove our virtue by doing with our might what our hands find to do.

Therefore in the words of Milton:

"Love Virtue, she alone is free;
She can teach ye how to climb
Higher than the sphery clime,
Or if Virtue feeble were,
Heaven itself would stoop to her."

MRS. MATTIE B. JONES.

The music section of the Club will meet at the home of its curator, Mrs. Freman Kelly, 908 Dryden street, on Thursday afternoon, at 2:30 o'clock, October 23rd. This meeting is for members only, but new members will be welcomed.

The business meeting outlining the plans for the Section's work for the season, arranging dates for music, and laying out the studies to be taken up will be followed by a short musical program, as follows:

Piano solo, by local talent.

Vocal solo, "One Morning, O So Early".....Goring Thomas
Mrs. Wm. Herman West.

Violin solo.....Selected
Miss Martha Porter.

Vocal solo, with violin obligato—Angel Serenade.....Braga
Mrs. Wm. Herman West and Miss Martha Porter.

Miss Elizabeth Porter at piano.

Mrs. Abramson, the district chairman for the Department of Music for Club federation, will meet with the section November 20, at the residence of the Club's president, Mrs. Madison B. Jones at First and Orange streets.

The Burbank municipal lighting plant ,under the management of Harry Lynch, is taking high rank as an efficient plant, and at the recent League of Municipalities held at Venice was referred to as a model plant.

City Marshal Gould says he proposes to arrest and prosecute all people caught throwing paper and trash on the streets of the city in the future, and also to arrest those who ride bicycles on the sidewalks in violation of the city ordinance. For some time past the crossings at Brand and Tropico and Brand and Park streets have been littered up by the newsboys, as well as a general disposition on the part of many in the city to carelessly throw around paper and trash. In the future this must be discontinued or someone will get into trouble, so says the City Marshal.

Reports from the National Forest Reserve Service show that a total of 884 people have been employed in California protecting the National Forests during the present fire season. This does not include those employed temporarily. It is estimated that about 260 of the regular force will be retained during the winter as a nucleus of next season's fire protection forces.

Mr. and Mrs. Claude Sisney have returned to their home in Edendale after visiting a week with Mr. and Mrs. W. R. Hoppell on Christopher street.

### RESOLUTION NO. 144.

**A RESOLUTION OF THE BOARD OF TRUSTEES ORDERING CERTAIN STREET WORK TO BE DONE ON BLANCHE AVENUE.**

The Board of Trustees of the City of Tropico do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Tropico, State of California, hereby orders the same to be done, according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the Superintendent of Streets of said City, to-wit:

First. That Blanche Avenue from the Northerly line of Cypress Street to the Southerly line of Palmer Avenue be graded, oiled and tamped, it accordance with plan, profile, and special specifications for grading, oilin and tamping Blanche avenue anc Christopher Street, in the City o Tropico, which said special specifications were adopted by Resolution No 138 of the Board of Trustees of said City.

Second. That a cement curb be constructed along each line of the roadway of Blanche Avenue from the Northerly line of Cypress Street to the Southerly line of Palmer Avenue including returns at all intersections of streets, excepting along such portions of the line of the roadway of Palmer Avenue along which a cement curb has been and now is constructed to official line and grade in accordance with plan, profile and Specifications No. 2 for the construction of cement curb.

Third. That a cement sidewalk four (4) feet in width be constructed along each side of Blanche Avenue from the Northerly line of Cypress Avenue to the Southerly line of Palmer Avenue including returns at all intersections of streets and alleys. The inner edge of said walk to be placed one foot from property line of said avenue, and to be omitted along such portions of said Palmer Avenue along which a cement sidewalk has been and now is constructed to the official line and grade, said sidewalks to be constructed in accordance with plan, profile and Specifications No. 1 for the construction of cement sidewalks.

Fourth. All plans and profiles referred to in this Resolution are on file in the office of the City Engineer of said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said plans, profiles and specifications are hereby referred to for a more particular description of said work and made a part hereof.

Sec. 2. The Board of Trustees of the City of Tropico determines that serial bonds shall be issued to represent assessments of twenty-five dollars ($25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Sec. 3. The Tropico Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the City of Tropico, is hereby designated as the newspaper in which this resolution and notice of said work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

Sec. 4. The City Clerk of the City of Tropico is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 9th day of October, 1913.

### RESOLUTION NO. 145.

**A RESOLUTION OF THE BOARD OF TRUSTEES ORDERING CERTAIN STREET WORK TO BE DONE ON CHRISTOPHER STREET.**

The Board of Trustees of the City of Tropico do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Tropico, State of California, hereby orders the same to be done, according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the Superintendent of Streets of said City to-wit:

First. That Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road be graded, oiled and tamped in accordance with plan, profile and special specifications for grading, oiling, and tamping Blanche Avenue and Christopher Street in the City of Tropico, which special specifications were adopted by Resolution No. 138 of the Board of Trustees of said City.

Second. That a cement curb be constructed along each line of the roadway of Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road, said curb to be constructed in accordance with plan, profile, and Specifications No. 2 for the construction of cement curbs.

Third. That a cement sidewalk five (5) feet in width be constructed along both side lines of Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road. Said sidewalk to be constructed in accordance with plan, profile and Specifications No. 1 for the construction of cement sidewalks.

Fourth. All plans and profiles referred to in this Resolution are on file in the office of the City Engineer of said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said plans, profiles and specifications are hereby referred to for a more particular description of said work and made a part hereof.

Sec. 2. The Board of Trustees of the City of Tropico determines that serial bonds shall be issued to represent assessments of twenty-five dollars ($25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Sec. 3. The Tropico Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the City of Tropico, is hereby designated as the newspaper in which this resolution and notice of said work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

Sec. 4. The City Clerk of the City of Tropico is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 9th day of October, 1913.

### NOTICE INVITING STREET WORK PROPOSALS.

Pursuant to Statutes, and to Resolution No. 145, of the Board of Trustees of the City of Tropico, California, adopted the 9th day of October, 1913, directing this notice, the undersigned invites, and will receive at his office in the City Hall, in the Bank of Tropico Building, located at the junction of Central Avenue and San Fernando Road in the City of Tropico, up to 7:00 o'clock P. M. of Thursday, October 23, 1913, sealed proposals or bids for the following street work to be done according to the plans and specifications posted and on file therefor adopted, or herein mentioned, to-wit:

First. That Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road be graded, oiled and tamped in accordance with plan, profile and special specifications for grading, oiling, and tamping Blanche Avenue and Christopher Street in the City of Tropico, which special specifications were adopted by Resolution No. 138 of the Board of Trustees of said City.

Second. That a cement curb be constructed along each line of the roadway of Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road, said curb to be constructed in accordance with plan, profile, and Specifications No. 2 for the construction of cement curbs.

Third. That a cement sidewalk five (5) feet in width be constructed along both side lines of Christopher Street from the Westerly line of Columbus Avenue to the Easterly line of San Fernando Road. Said sidewalk to be constructed in accordance with plan, profile and Specifications No. 1 for the construction of cement sidewalks.

Fourth. All plans and profiles referred to in this Resolution are on file in the office of the City Engineer of said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said plans, profiles and specifications are hereby referred to for a more particular description of said work and made a part hereof.

Sec. 2. The Board of Trustees of the City of Tropico determines that serial bonds shall be issued to represent assessments of twenty-five dollars ($25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon ,on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid Said bonds shall be issued in accordance with the provisions of an Ac of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bond to represent certain assessments for the cost of street work and improvements within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Bidders must file with each proposal or bid a check payable to the order of the President of the Board of Trustees of the City of Tropico, certified by a responsible Bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal, or a bond for the said amount, and so payable, signed by the bidder and two sureties who shall justify before any officer competent to administer oaths, for double the said amount, and over and above all statutory exemptions. In bidding, use blanks which will be furnished by the City Clerk upon application.

Tropico, California, October 15, 1913
S. M. STREET,
City Clerk and ex-Officio Clerk of the Board of Trustees of the City of Tropico, California.

### NOTICE INVITING STREET WORK PROPOSALS.

Pursuant to Statutes, and to Resolution No. 144 of the Board of Trustees of the City of Tropico, California, adopted the 9th day of October, 1913, directing this notice, the undersigned invites, and will receive at his office in the City Hall, in the Bank of Tropico Building, located at the junction of Central Avenue and San Fernando Road in the City of Tropico, up to 7:00 o'clock P. M. of Thursday, October 23, 1913, sealed proposals or bids for the following street work to be done according to the plans and specifications posted and on file therefor adopted, or herein mentioned, to-wit:

First. That Blanche Avenue from the Northerly line of Cypress Street to the Southerly line of Palmer Avenue be graded, oiled and tamped, in accordance with plan, profile, and special specifications for grading, oiling and tamping Blanche Avenue and Christopher Street, in the City of Tropico, which said special specifications were adopted by Resolution No. 138 of the Board of Trustees of said City.

Second. That a cement curb be constructed along each line of the roadway of Blanche Avenue from the Northerly line of Cypress Street to the Southerly line of Palmer Avenue including returns at all intersections of streets, excepting along such portions of the line of the roadway of Palmer Avenue along which a cement curb has been and now is constructed to official line and grade in accordance with plan, profile and Specifications No. 2 for the construction of cement curb.

Third. That a cement sidewalk four (4) feet in width be constructed along each side of Blanche Avenue from the Northerly line of Cypress Avenue to the Southerly line of Palmer Avenue, including returns at all intersections of streets and alleys. The inner edge of said walk to be placed one foot from property line of said avenue, and to be omitted along such portions of said Palmer Avenue along which a cement sidewalk has been and now is constructed to the official line and grade, said sidewalks to be constructed in accordance with plan, profile and Specifications No. 1 for the construction of cement sidewalks.

### NOTICE OF DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the partnership heretofore existing between George N. Adams and Louis L. Shears, known and designated as "Adams and Shears," Civil and Hydraulic Engineers, with its principal place of business at 222 Security Building, Los Angeles, California, has been dissolved by mutual consent of both members, said dissolution to take effect September 14, 1913.

All debts due the partnership may be paid to either George N. Adams or Louis L. Shears, upon presentation of a written order signed by both of said former partners, or without such order if both are present and authorize such payment.

All claims against the partnership should be immediately presented to George N. Adams.

George N. Adams, Civil and Hydraulic Engineer, will continue to be located at 222 Security Building.

GEORGE N. ADAMS.

### HIGH SCHOOL NOTES.

The Senior class had a "Weiner Roast" on the High School campus on the evening of the 16th. The girls gave it to the boys for the brave fight they put put up for the basketball championship.

Everyone had a good time, especially the boys, as there were "weiners" galore, and buns also. The chaperones were: Mr. Ferguson, who is the Senior class teacher; Mrs. Gibson and Miss Darsie, and judging from the broad grins they had on their faces they were having a good time, too.

The varsity basketball practice started last Monday, as the first league game will be about the last of November or the first of December, and by the time four or five practice games are held the six weeks will be up. The first practice game is scheduled for next Wednesday with the Alumni. The Alumni has a veteran team and they should win, but our team will give them a good game.

The Seniors are putting on a splendid production in the form of a musicale, known as the Southern California Jubilee Quartet. The show promises to be very good. One of the troupe, they are all men, impersonates a woman singing, and he especially is good.

The Glandale basketball team plays Burbank a practice game on the Burbank court Wednesday, the 27th. Although our team has just started practicing, they won't have much trouble with Burbank, as they have lost all of their old players, while Glendale has four of hers in the game.

Two Glendale boys, Jim Gibson and Tom Thornton, played football with the Army and Navy Academy last Saturday at Long Beach. These boys went down to the Army and Navy Academy in September, where they will remain through the year.

### CIVIC CLUB MEETS.

The regular meeting of the Civic Club met Tuesday evening, Vice President Wayland Brown presiding. The reports of the various committees were submitted. The Weed Committee reported that their work had been finished, but that they were in arrears $3.10. On motion a warrant was ordered drawn on the treasury to reimburse the committee, and a motion made that the secretary notify the property owners on whose property the weeds had been cut as to the amount of money expended in cutting the weeds on such property, and to ask them if they would not reimburse the Club for this outlay. The committee was warm in its praise of the efficient manner in which Mr. W. E. Edwards did the work. The next meeting will be the annual election of officers, and all members are urged to be present.

### Tropico Fans Lament

Continued from page 1

Next Sunday Tropico plays Lankershim at the latter's diamond, and in order to provide amusement for those who do not care to make the trip to Lankershim efforts are being made to arrange a game between Bullocks and Owensmouth at Tropico. The score:

Tropico—
Runs..... 0 0 0 1 0 0 0 3 3 0—7
Hits..... 0 1 0 0 0 0 1 4 2 0—8
Glendale—
Runs..... 2 2 0 1 0 1 0 1 0 1—8
Hits..... 1 2 0 1 0 1 1 1 0 1—8

Two-base hits—By Glendale 3, by Tropico 1. Struck out—By Bidwell 13, by Johnston 11, by Gault 2. Base on balls—Off Bidwell 3, off Johnson 5. Umpires—Craig and Spear.
